DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SNAP Disinfectant Cleaner is a phosphate-free formulation designed to provide effective cleaning, deodorizing and disinfection specifically hospitals, nursing homes, schools, food processing plants, food service establishments and other institutions where house keeping is of prime importance in controlling the hazard of cross contamination. This product, when used as directed, is formulated to disinfect inanimate, hard surfaces such as walls, floors, sink tops, toilet bowls, tables, chairs, telephones and bed frames. For larger areas such as operating rooms, patient care facilities and restrooms, this product is designed to provide both general cleaning and disinfecting. This product deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage, toilet bowls, and other areas which are prone to odors caused by microorganisms.

DISINFECTION: To disinfect inanimate, hard surfaces add 2 ounces of this product per gallon of water. Apply solution with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, and then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use. To disinfect toilet bowls, flush toilet and add 2 ounces of this product directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

BACTERICIDAL ACTIVITY: When diluted at the rate of 2 ounces per gallon of water, this product exhibits effective disinfectant activity against the following organisms: *Pseudomonas aeruginosa* PRD 10, *Escherichia coli*, *Klebsiella pneumoniae*, *Salmonella schottmuelleri*, *Salmonella choleraesuis*, *Streptococcus salivarius*, *Brevibacterium ammoniagenes*, *Streptococcus faecalis*, *Shigella dysenteriae*, *Enterobacter aerogenes* and *Staphylococcus aureus* and meets all requirements for use in most hospitals.

MILDEWSTAT: To control mold and mildew on pre-cleaned, hard, nonporous surfaces, add 2 ounces of this product per gallon of water. Apply solution with a cloth, mop or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

FUNGICIDAL ACTIVITY: At the 2 ounce per gallon dilution, this product is also fungicidal against the pathogenic fungi, *Trichophyton mentagrophytes*. Efficacy tests have demonstrated that this product is an effective bactericide, fungicide, and virucide, in the presence of organic soil (5% blood serum).

***VIRUCIDAL ACTIVITY:** When used on environmental, inanimate, hard surfaces at 2 ounces per gallon of water, this product exhibits effective virucidal activity against Influenza A2/Japan (representative of the common flu virus), Herpes simplex type 1 (causative agent of fever blisters), Adenovirus type 2 (causative agent of upper respiratory infections), and Vaccinia virus (representative of the pox virus group). Kills HIV on pre-cleaned environmental surfaces/objects previously soiled with bloody/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus type 1 (HIV-1) (associated with AIDS).

Cleaner/ Disinfectant/Detergent • Fungicide (against Pathogenic fungi) • Deodorizer/Virucide • Mildew Stat
(on hard inanimate surfaces)

Active Ingredients

n- Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides..... 2.25%
n-Alkyl (68% C12, 3% C14) dimethyl ethylbenzyl ammonium chlorides..... 2.25%
INERT INGREDIENTS TOTAL.....95.5%

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the product.

PERSONAL PROTECTION: When handling items soiled with blood or body fluid, use disposable latex gloves, gowns, masks, or eye coverings.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER. KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For treatment of contact with eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink egg whites or gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Return metal drum for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Plastics containers may be disposed of in a sanitary landfill, incinerated, or if allowed by local authorities, by burning. If burned, stay out of smoke. For container 1 gallon or less, do not reuse empty container (bottle, can, bucket). Wrap container and dispose.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or liquid is a violation of federal law. If waste disposal cannot be done according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative in the nearest EPA Regional Office for guidance.
